Binoculars

Approach

1. If the student has brought a paper towel roll, cut the roll in two equal parts and keep a small tip to staple the rolls together.
2. Students decorate their tubes with paint, markers, stickers, etc.
3. With a wide end of roll, staple the tubes together in the center.
4. Once dry, perforate and add a cord so students can have it on their wrists or around their necks.

With a wide end of roll, staple the tubes together in the center.
