

SCHOOL DAYCARE TAKES THE SPOTLIGHT!

FROM MAY 13 TO 17, 2019,
IT'S THE QUEBEC
SCHOOL DAYCARE'S WEEK!

Together, let's use this opportunity to celebrate and shine a light on our stars: the school daycare staff and their students!

An activity book in connection with the cinema theme is being developed in collaboration with *École Branchée*, and will be offered online at gardescolaire.org.

The easy and fun activities will be about video-editing short clips and mini-documentaries. Students will have the main role in these activities and will be able to showcase what they do and experience at the school daycare, with the help of their educators.

Educators will have the opportunity to facilitate such activities with their students, who will have the lead role in demonstrating what they experience and do at the daycare.

What's better than a red carpet to celebrate!

THEME DESCRIPTION

School Daycare takes the spotlight!

Broadcast: Everywhere in Quebec

Release: May 13, 2019

SCENARIO: In a school daycare, we are getting ready to start the new school year. Once again, the daycare staff is excited to meet the students. In the coming months, the team will have a very important role to play in their development. This will sometimes require patience, often sensitivity, always passion, but the smile of a student who experiments and succeeds to develop his skills and his self-esteem is the greatest form of recognition there is! From September to June, the protagonists will live a multitude of small and big experiences that make daycare a colorful living environment!

APPRECIATION: This documentary shows you everyday scenes at the school daycare. The plot, full of adventures that will make you experience a wide range of emotions, takes you behind the scene of this environment that is still too often overlooked, even if it is used by more than six out of 10 Quebec children. You will see in particular competent and committed people, students who have fun while developing their skills, all through a multitude of cool activities that help them develop their social and other skills. **But what you will find, above all, is a story of passion. That of tens of thousands of students that we see evolving through life, but also of the devoted men and women who, every day, support each other and accompany the students on their path to educational success.**

From May 13 to 17, 2019, the Association Québécoise de la garde scolaire invites you to discover the significant contribution of the school daycares to the conditions that favor the overall development of students.
