

Who am I?

Here is an activity to be done during the **week 4** of the 2019 *Health Challenge*, which theme is **Mealtime funtime**. It consists in making others guess what fruit or vegetable they represent by asking only questions that can be answered by yes or no.

Age Group:

Multiage.

Required Material:

- Sheets of paper and scissors so that students can create their own cards.
- Tape.

Expertise

Aspect of the overall skills developed by the student:

- Affective
- Cognitive
- Moral
- Psychomotor
- Social

Educative Intention:

At the end of this activity, students will have developed cooperation.

Professional expertise put forward by this activity:

- Create activities designed for socio-affective and moral development

Who am I?

Approach

1. Prepare yourselves

- Have students create cards by drawing a fruit or vegetable on pieces of paper. Students who can write can also write the name of the chosen fruit or vegetable.

2. Have fun!

- Paste a card on a board representing a fruit or vegetable on each student's forehead. The student must not have seen the card he is wearing on his forehead.
- In turn, students can ask questions that can be answered yes or no only to try to discover the fruit or vegetable they inherited.
- When a player asks a question and the answer is yes, then he can follow up with another question. If the answer is no, then he must give up his turn.

- If you have several cards in reserve, the player who found his fruit or vegetable may stick with a new card on his forehead.

3. Tell us about your experience

Do not forget to take a photo of the activity and send it to info@defisante.ca!
